

Recologized!

LIFESTYLE OF THE ENVIRONMENTALLY CONSCIOUS

MEET RON GATES

By day, Ron Gates is Recology's Maintenance Manager, which means he's in charge of all vehicles, equipment, transfer station facilities and recycling lines. After work, he's a community crusader, making pasta sauce and grilling chicken for various non-profit organizations. Sound like a Superhero? Some say yes!

Ron started his career with Yuba Sutter Disposal more than 30 years ago, responsible for all of the tires for the company's many vehicles. He quickly was promoted to Mechanic and Driver positions, and then entered into the management side of the business as the Night Foreman. His position today makes him responsible for just about anything "with a moving part" and all of the building maintenance at the N. Levee Road site in Marysville.

Besides cooking for the more than 35 dinners/year that Recology hosts as fundraisers and representing the employee-owners at Recology sponsored events, he and his wife of 36 years, Angie, are very involved with the Yuba-Sutter community. They are both members of Marysville Kiwanis and in fact, Angie chaired this year's Italian Night while Ron ran the pasta crew. They are also members of So You Can, an organization Angie helped to found. They are the proud parents of 2 and also have 2 grandchildren.

Ron is a native Yuba County resident and loves to play golf...when he finds the time!

SCAVENGERS

Removing recyclables or trash from your carts by anyone other than you or Recology is, in fact, against the law and can be reported to law enforcement. We provide free recycling service to our customers because the revenue from the recyclables subsidizes your monthly rate to keep it lower. Stealing from your bins is stealing from all customers. It also helps if you take your bins to the curb before 5:00am instead of the night before and recycle items yourself so they aren't available in the bin.

NICKELS FOR CHARITY

Like many stores in the Yuba Sutter area, New Earth Market in Yuba City gives customers a nickel for each reusable grocery bag they bring into the store to use at checkout.

Last month, New Earth Market started offering customers the option to donate these nickels to local charities. Customers who choose

to donate will be given wooden nickels and the option of inserting them in a box for Casa De Esperanza, ResQpaws, the Sutter Buttes Regional Land Trust, or the Rotary Club of Yuba City's Light for Life project. Reusing your grocery bags at New Earth Market now supports our environment and these fantastic local charities.

New Earth Market – we salute you!
