A clean community is a happy community.

The City has a comprehensive preventative maintenance program to inspect, monitor and maintain 1,400 of our storm drain inlets throughout the city. Regular scheduled street sweeping is in place, with enhanced sweeping during winter months. “No Dumping-Flows to Bay” storm drain placards are installed on every storm drain. The Belmont Public Works Department has also installed trash capture devices in 69 storm drains where litter activities have been an issue.
