

The Recology® RESOURCE

BOLINAS | SPRING 2020

Our climate is changing. According to the Scientific American, the last six years (2014 - 2019) have been the warmest in recorded history. The reality of climate change is especially apparent locally, with devastating wild fires becoming the new normal.

Did you know that compost can combat climate change? In the U.S., landfills are the third largest source of methane – a potent greenhouse gas. Composting your raw fruit and vegetable scraps **prevents this material from producing methane in landfills**. The benefits don't stop there. Not only does compost help plants grow, but it also **stores carbon from the atmosphere in the soil**.

Participating in a compost program is as simple as placing your raw fruit and vegetable food scraps in your Recology green compost cart instead of your gray garbage cart at home. **Please do not place any non-vegetative processed or cooked food scraps in your compost cart (no cooked fruit or vegetables, meat, eggs or egg shells, pastas or grains)**. We also offer free kitchen compost pails for pick-up at our recycling buyback center in Novato (7576 Redwood Boulevard). These pails make collecting raw fruit and vegetable scraps in your kitchen a breeze!

Step 1: Put your raw fruit & vegetable scraps in a pail in the kitchen.

Step 2: Empty your raw fruit & vegetable scraps into your green bin at home or work.

Step 3: Recology will service your green bin and take your material to a compost facility!

DISPELLING THE MYTHS!

-  **YES! We do recycle plastics.**
While China & Southeast Asia have clamped down on what plastics they will accept, we have found markets for plastic containers as long as they are **clean and dry**.
-  **No one sorts the garbage.**
Everything you place in your garbage bin goes directly to the landfill. This is why it is important to **put your compostable and recyclable materials in the correct bin**.
-  **"Compostable" isn't always compostable.**
Plastics labeled "compostable" are not accepted at any of the compost facilities where we take your material.
"Bio Bags" are not accepted in residential compost.
-  **Symbols like this  do not always mean "recyclable".**
These symbols were created by the plastics industry to identify the resin in the material. #6 for example is most commonly seen in Styrofoam form, and is not accepted in our recycling program.

CURBSIDE CLEAN-UP April 13th - April 17th RECOLECCIÓN DE ARTÍCULOS VOLUMINOSOS

- ✓ **14 bags, boxes or cans of refuse OR,**
14 bolsas, cajas o botes de basura O,
- ✓ **7 bags, boxes, or cans of refuse AND 1 bulky item OR,**
7 bolsas, cajas o botes de basura y un artículo voluminoso O,
- ✓ **2 bulky items**
2 artículos voluminosos

Visit Recology.com/SonomaMarin for more information. **Large furniture or appliances require an appointment.** Call **800.243.0291** or email **RecologySonomaMarin@Recology.com** by 2pm on April 10th.

WASTE ZERO SERVICES

State laws AB341 and AB1826 require accounts with 4 cubic yards or more of solid waste per week to have recycle and compost service. Let our Waste Zero Team help your school, business, or multi-family dwelling recycle and compost more, while saving money on your monthly bill!

HOUSEHOLD HAZARDOUS WASTE (HHW)

DO NOT dispose of household hazardous waste in garbage, recycling, or compost bins. It is extremely dangerous to sanitation workers and must be disposed of properly.

The Marin HHW Facility at 565 Jacoby Street in San Rafael has several options for residents and businesses to properly dispose of household hazardous waste (HHW).

**ZERO
WASTE
MARIN**

Residents: For HHW disposal information and a complete description of what can be brought to the facility, call 415.485.6806 option 1. Residential drop-off is Tuesday - Saturday, 8am - 3:30pm.

Businesses: For disposal information and appointments, call 415.485.6806 option 2. Business drop-off is by appointment only, Tuesday - Wednesday, 8am - 3pm. Fees apply.

Visit MarinHHW.com for more information.

MEET THE TEAM

Meet Elsa! Elsa has been a recycling sort-line worker since 2004. She and the rest of our team of 56 sorters go through over 300 tons of your recyclables every day!

NOTORIOUS RECYCLING OFFENDERS

Plastic bags and film plastic get wrapped around our recycling sorting equipment and an employee has to physically cut them out. This is a dangerous job, and can cause delays on the sort line.

Food and beverage containers need to be clean and dry in order to be recycled, as do paper and cardboard. When this material is contaminated with food residue, like pasta sauce, it ends up in the landfill.

DO NOT dispose of needles, syringes, or lancets in garbage, recycle, or compost bins. They are extremely dangerous to sanitation workers and **must** be disposed of as hazardous waste.

WHAT GOES WHERE? ¿A DÓNDE VA CADA COSA?

COMPOST

- ✓ **RAW fruit & veggie scraps**
Restos de frutas y verduras crudas

- ✓ **Plant trimmings**
Recortes de plantas

- ✓ **Wooden chop sticks & stir sticks**
Palillos chinos y palitos de madera

✓ **YES, you can put RAW fruit & vegetable scraps in your yard trimmings cart (AKA compost cart)!**

- ✓ Compost captures carbon from the air while introducing rich nutrients in the soil. It's a win-win!
- ✓ Keeping food scraps and yard trimmings out of the landfill reduces methane (a potent greenhouse gas) emissions.

RECYCLE

- ✓ **Aluminum & steel cans**
Latas de aluminio y acero
- ✓ **Aluminum foil & trays**
Papel y charolas de aluminio

- ✓ **Plastic containers**
Contenedores de plástico

- ✓ **Glass bottles & jars**
(metal caps & lids on)
Botellas y frascos de vidrio (incluya las tapas de metal)

- ✓ **Paper & cardboard**
Papel y cartón

- ♻️ **Recyclables must be empty & dry. No food or liquids.**
- ♻️ When it comes to plastics, think containers. Plastic bottles, tubs, jugs, and cups are accepted.
No plastic bags please.

WHERE DOES IT GO?

WHAT?

Plastic Cup
Vaso de Plástico

Coffee Cups
Taza de Café

Plastic Clamshells
Cajas Para Comida Para Llevar

Plastic Utensils & Straws
Utensilios y pajitas de plástico

WHERE?

Recycle
Reciclar

Garbage
Basura

Recycle
Reciclar

Garbage
Basura

WHY?

We can recycle plastic cups as long as they are **empty & dry**.

Coffee cups have a plastic liner which prevents them from being recyclable or compostable.

We can recycle plastic clamshells as long as they are **empty & dry**.

Not recyclable in a single-stream system. Too small to be sorted properly.
